RE: Seven Energy

Dear Jimmy,

Thank you, thank you, thank you for a project well done. As you know, this project would never have been completed in the time frame allowed had it not been for the extraordinary efforts of all who worked on the project. Your willingness to go the extra mile was so important and helped us to achieve our goal and to meet Seven Energy's needs.

Please feel free to use me and this project as a reference as you pursue future projects. Good luck with your new company. I know there will be many more successful projects in your future.

Sincerely,

A handwritten signature in cursive script that reads 'Sondra'.
